## PRECAUTIONARY STATEMENTS

**Hazard to Humans & Domestic Animals**  
**DANGER:** May cause irreversible eye damage if sprayed in the eyes at close range. Contact through fouding or rubbing eyes may result in substantial but temporary eye injury. Strongly irritant to nose and skin. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

**First Aid**  
Follow label with you when obtaining medical advice. Call a poison control center, doctor, or 1-800-858-7378 immediately for treatment advice.

**Risk to Skin or Clothing**  
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**Physical or Chemical Hazards**  
**FLAMMABLE, CONTENTS UNDER PRESSURE.** Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

**Environmental Hazards**  
Do not apply directly to water. Do not contaminate water by disposing of unused materials.

**Directions for Use**  
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Use Restrictions:**  
This product may be used only to deter bears that are attacking or appear likely to attack humans. This product may not be effective in all situations or prevent all injuries. Do not spray this product on objects, tents or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or feed material that may have become contaminated with this product.

This product has an effective range of 55 feet. The canister empties in approximately 5 seconds.

**APPLICATION DIRECTIONS:** Special procedures must be followed to arm the canister; apply the product and restore the safety clip to disarm the canister. Before taking this product to bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this canister, make sure the wind at your back and depress the actuator tab for more than half a second. Do not test-fire in areas inhabited by bears. After test firing, clean nozzle and can with soap and water to remove residue from the can.

**To Arm and Apply:**  
Place forefinger through hole in handle with thumb on safety clip curl. Pull safety clip straight back and off using thumb (Fig. 1). Depress actuator tab for burst of spray (Fig. 2). Aim at face and eyes of bear; press trigger for 3 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

**To Disarm:**  
Replace safety clip by firmly pushing with thumb until audible "snap" is heard (Fig. 3). Check to see if safety clip is securely in place. No gap should be visible between the actuator handle and the safety clip.
