up to 1/4 mile away, attracting
attention to help scare off
attackers in dangerous situations.
Mace...Just in Case.™

1 Point Nozzle Opening
Toward Attacker
Arrow on cap indicates
direction of sound.

2 Press down on the cap
to emit sonic blast
TIP: Ensure safe operation
by depressing quickly for
a test blast.

CAUTION: CONTENTS UNDER PRESSURE. Do not puncture,
inerate or store at a temperature above 120°F. Do not
store in direct sunlight as container may burst at elevated
temperature. **WARNING:** Do not use near ear as this may
cause permanent hearing damage. **KEEP OUT OF THE
REACH OF CHILDREN.** This alarm should only be used in an
actual emergency. Indiscriminate use may detract from
distress value. Sustained usage will chill canister and will
temporarily restrict sound.
