net weight 45g

safety flip-top LED light batteries included

CAUTION STRONG IRRITANT CONTENTS UNDER PRESSURE

Read additional cautions on back - Not for sale to minors

CAUTION:

Defense sprays may take several seconds to work and may not be effective on enraged, drugged or intoxicated people or following important information:

You should test the functioning of your unit periodically by discharging in a safe area away from all persons and animals in the vicinity. Take care that you do not exhaust the contents of the unit you intend to rely upon.

- Your best protection is to avoid potentially dangerous situations if you can. Always be aware of your environment and the people around you. Be especially alert after dark. Do everything you can to escape from an assailant before resorting to the use of your defense spray.

HOW TO USE

- When you sense that you are in a potentially dangerous situation, have your unit in hand and ready to use. The flip-top safety cap will prevent access to the actuator button if you're holding the unit backwards. This feature helps you properly orient the unit, even in the dark or under stress, so it's ready for use when needed. Slip your thumb under the flip-top safety cap and be ready to spray the assailant by pressing down on the actuator button with your thumb. Point and spray short bursts at the facial area of your assailant. The formation is most effective on contact with the eyes. Continue to spray until the attacker is incapacitated, then move to a safe place as quickly as possible. Do not attempt to take the attacker into custody—you may be injured if you do. Contact the police when you are safely away. The unit is designed to be actuated in short bursts aimed at the face. When actuated, the irritant agent will issue from the unit a distance up to approximately 18 feet. Avoid spraying directly into the wind. Use the unit in the upright position only, otherwise it may not function properly then or afterwards.

FIRST AID

- Remove contact lenses and contaminated clothing immediately. Contaminated clothing should be cleaned prior to re-use to prevent skin injury.
- Flush contaminated area with large quantities of cool water or a diluted baking soda solution and expose the area to fresh air as soon as possible.
- Do not apply salves, creams, oils or lotions as they can trap the irritant agent against the skin and result in blisters or burns.
- Consult a physician if irritation persists.

LEGAL REQUIREMENTS

Possession and/or use of defense sprays may be regulated or prohibited by law in some jurisdictions. If there is any question, check with your local police department. Under current FAA regulations, this unit is permitted in checked baggage only. Do not carry this unit on your person or stow in your carry on baggage. For additional information, do not allow time limitations on an implied warranty, or the exclusion or limitation of incidental or consequential damage, so the above exclusions may not apply to you. PRECAUCIÓN: El aerosol de pimienta para defensa personal puede tomar algunos segundos en funcionar y quizás no sea un método efectivo de defensa contra gente enfurecida, drogada o intoxicada o contra asaltantes armados. Por favor lea la siguiente información importante:

Usted debe probar periódicamente el funcionamiento de su unidad, des- cargándola una o dos veces, al aire libre en un lugar seguro y libre de personas o mascotas alrededor. Tenga cuidado de no descargar completamente la unidad con la cual contacte como defensa.- Sumo nivel de protección es evitar situaciones potencialmente peligrosas en lo posible. Siempre sea consciente de lo que pases a su alrededor y de la gente que lo rodea. Este espejalmente alerta después del ancho- cer. Haga todo lo posible por escapar de un asaltante antes de recurrir al uso de su aerosol de pimienta.

INSTRUCCIONES DE USO

- Cuando lo sienta que esta en una situación potencialmente peligrosas, mantenga la unidad a mano y lista para usar. La tapa de seguridad abatible previene el acceso al botón de liberación de aerosol si la unidad se agerra al revés. Estas características le ayudarán a orientar la unidad o bajo una situación estresante, estando así, siempre lista para usar.
- Deslice su pulgar por debajo de la tapa de seguridad abatible y esté listo para atacar a su asaltante presionando el botón de liberación de aerosol con su dedo pulgar. Apunte y rocíe descargas intermitentes de aerosol sobre el rostro de su asaltante. La for- mación es más efectiva al entrar en contacto con los ojos. Continúe rociando hasta que su asaltante quede incapacitado, luego retírese a un lugar seguro lo más rápido posible. No intente restringir o detener al asaltante por su propia cuenta- podrá lesionarse. Contacte a las autoridades en cuanto se encuentre a salvo.
- La unidad está diseñada para rociar descargas intermitentes cortas al área del rostro. La descarga del agente irritante comenzará entre los 5,5 m de distancia. Evite rociar directamente de frente al viento. Utili- ce la unidad en posición vertical solamente, de lo contrario, se corre el riesgo de que la unidad no funcione debidamente al momento de usarse o en el futuro.

PRIMEROS AUXILIOS

- Remueva las lentes de contacto y la ropa contaminada inmediatamente. La ropa contaminada debe ser lavada antes de usarse nuevamente para prevenir daños a la piel. Enjuague el área contaminada con grandes cantidades de agua fresca o bicarbonato de sodio disueltos y exponga el área al aire fresco lo antes posible. NO APLIQUE UNGUENTOS, CREMAS, ACEITES O LOCIONES, ya que puede atapar los agentes irritantes contra la piel causando quemaduras y ampollas. Consulte a un médico si la irritación persiste.

REQUERIMIENTOS LEGALES

La posesión y uso de los aerosoles para defensa personal pueden estar regulados o prohibidos por ley en algunas jurisdicciones. Si tiene dudas, consulte con el departamento de policía local.

(Federal Aviation Administration por sus siglas en inglés), esta unidad está permitida ser transportada en las maletas solamente. Para más información visite la página www.faa.gov.
