net weight 11g

easy carry key ring & belt clip

CAUTION STRONG IRRITANT CONTENTS UNDER PRESSURE
 Read additional cautions on back - Not for sale to minors

CAUTION:

Defense sprays may take several seconds to work and may not be effective on enraged, drugged or intoxicated people or following important information:

- You should test the functioning of your unit periodically by discharging one or two short bursts outdoors in a safe area away from all persons and animals in the vicinity. Take care that you do not exhaust the contents of the unit you intend to rely upon. Your best protection is to avoid potentially dangerous situations if you can.
- Always be aware of your environment and the people around you. Be especially alert for serious skin irritation and, in extreme cases, of first and second degree burns, if you are in a potentially dangerous situation, have your unit in hand and ready to use. Rotate the glow-in-the-dark actuator button from the locked position to the ready position. You are now ready to spray the assailant by pressing down on the actuator button with your finger. Point and spray short bursts at the facial area of your assailant. The formulation is most effective on contact with the eyes. Continue to spray until the attacker is incapacitated, then move to a safe place as quickly as possible. Do not attempt to take the attacker into custody—you may be injured if you do. Contact the police when you are safely away. The unit is designed to be actuated in short bursts aimed at the face. When actuated, the irritant agent will issue from the unit a distance up to approximately 10 feet. Avoid spraying directly into the wind. Use the unit in the upright position only, otherwise it may not function properly then or afterwards.

FIRST AID

CAUTION: Failure to follow these instructions may result in first or second degree burns, severe skin irritation, depigmentation or other skin injury.

Remove contact lenses and contaminated clothing immediately. Contaminated clothing should be cleaned prior to re-use to prevent skin injury.

- Flush contaminated area with large quantities of cool water or a diluted baking soda solution and expose the area to fresh air as soon as possible.
- Do not apply salves, creams, oils or lotions as they can trap the irritant agent against the skin and result in blisters or burns.
- Consult a physician if irritation persists.

LEGAL REQUIREMENTS

Possession and/or use of defense sprays may be regulated or prohibited by law in some jurisdictions. If there is any question, check with your local police department. Under current FAA regulations, this unit is permitted in checked baggage only. Do not carry this unit on your person or stomach in your carry-on bag. For additional information, please visit www.fsa.gov.
