## CAUTION:

Defenses sprays may take several seconds to work and may not be effective on enraged, drugged or intoxicated people or against armed assailants. Please read the following important information

■ You should test the functioning of your unit periodically by discharging one or two short burst rounds in a safe area away from all persons and animals in the vicinity. Take care that you do not exhaust the contents of the unit you intend to rely upon. Your best protection is to avoid potentially dangerous situations if you can. Always be aware of your environment and the people around you. Be especially alert after dark. Do everything you can to escape from an assailant before resorting to the use of your defense spray.

## HOW TO USE

■ When you sense that you are in a potentially dangerous situation, have your protective cover and position your finger on the actuator button. You are now ready to spray the assailant by pressing down on the actuator button with your finger. Point the actuator button with your finger. Do not spray until the attacker is incapacitated. Do not attempt to take the attacker into custody—you may be injured if you do. Contact the police when you are safely away. The unit is designed to be actuated in short bursts aimed at the face. When actuated, the irritant agent will issue from the unit a distance up to approximately 10 feet. Avoid spraying directly into the wind. Use the unit in the upright position only, otherwise it may not function properly then or afterwards.

**FIRST AID**  
**CAUTION: Failure to follow these instructions may result in first or second degree burns, severe skin irritation, depigmentation or other skin injury.**  
■ Remove contact lenses and contaminated clothing immediately. Contaminated clothing should be cleaned prior to re-use to prevent skin injury.  
■ Flush contaminated area with large quantities of cool water or a diluted baking soda solution and expose the area to fresh air as soon as possible.  
■ Do not apply saliva, creams, oils or lotions as they can trap the irritant agent against the skin and result in blisters.  
■ Consult a physician if irritation persists, or burns.

**LEGAL REQUIREMENTS**  
Possession and/or use of defense sprays may be regulated or prohibited by law in some jurisdictions. If there is any question, check with your local police department. Under current FAA regulations, this unit is permitted in checked baggage only. Do not

**SECURITY AND STORAGE**  
In light of the potential for serious skin irritation and, in extreme cases, of first and second degree burns, it is important to keep your unit out of the reach of children and irresponsible adults. Do not store it in an environment where the temperature may exceed 120°F as the unit may leak from over pressurization and fail to function properly.  
Each unit is marked with an expiration date, after which it should be discarded. Dispose of in accordance with state, local and federal regulations. Do not puncture the unit since it is under pressure and will discharge if punctured. Do not incinerate or place the unit in an environment where the temperature may exceed 120°F.

**LIMITED WARRANTY**  
Mace Personal Defense & Security, Inc. warrants that your unit shall be free from defects in materials and workmanship which arise prior to the expiration date shown on the unit. Any implied warranties, including those of Merchantability or fitness for a particular purpose are also limited to the expiration date shown on the unit and any action must be commenced within 60 days following the expiration date. In the event a failure occurs due to materials care. This device shall not be sold by anyone other than a licensed or authorized dealer. Possession of this device by anyone who has been convicted of a felony or assault is illegal. Violators may be prosecuted under the law.  
If you would like to learn more about Mace brand products, please visit us online at [www.mace.com](http://www.mace.com).

**GARANZIA LIMITADA**  
Mace Personal Defense & Security, Inc. garantiza que su unidad está libre de defectos en material y fabricación. Cada unidad esta marcada con una fecha de expiración, pasada esa fecha la unidad debe ser descartada y de acuerdo a las regulaciones locales, estatales y Federales. No intente o coloque a temperaturas que excedan los 48 °C.

**PRIMARIOS AUXILIOS**  
Las instrucciones, puede resultar en lesiones graves de primer o segundo grado, irritación severa de la piel, descoloración y otros daños a la piel.  
■ Remueva las lentes de contacto y la ropa contaminada inmediatamente. La ropa contaminada debe ser lavada antes de usarse nuevamente para prevenir daños a la piel. Enjuague el área contaminada con grandes cantidades de agua fresca o bicarbonato de sodio disuelto y exponga el área al aire fresco lo antes posible. NO APlique UNGUENTOS, CREMAS, ACEITES O LOCIONES, ya que puede atrapar los agentes irritantes contra la piel causando quemaduras y ampollas. Consulte a un médico si la irritación persiste.

**REQUERIMIENTOS LEGALES**  
La posesión y uso de los aerosoles para defensa personal pueden estar regulados o prohibidos por ley en algunas jurisdicciones. Si tiene dudas, consulte con el departamento de policía local.  
Bajo las regulaciones actuales del FAA (Federal Aviation Administration), por sus siglas en inglés), esta unidad esta permitida ser transportada en las maletas solamente. Para más información visite la página [www.fsa.gov](http://www.fsa.gov).
